LABELIZATION OF SCIENTIFIC MEETINGS --- APPLICATION FORM ---

**INCLUDE HERE 1 PAGE CV OF ORGANIZERS
WITH THE LAST 5 SCIENTIFIC PUBLICATIONS**

AMSUD PASTEUR NETWORK

LABELIZATION OF SCIENTIFIC MEETINGS --- APPLICATION FORM ---

GUIDELINES FOR APPLICATION AND SELECTION CRITERIA :

Objectives : The aims of AMSUD Pasteur Regional Scientific meetings (workshop, symposia, conferences, congress, international/regional courses) are to consolidate training and theoretical skills of students and researchers, to build a critical mass of individuals of academic institutions in the MERCOSUR region and to strengthen network research capacities aiming at creating a scientific environment of excellence to respond to public health needs in South America. AMSUD Pasteur Regional Scientific meetings should aim at the following: consolidation of scientific domains not well/less developed in the region, stimulation of long-term efforts in neglected or less advanced areas of science in the field of tropical diseases, up-date methodology to control prevailing diseases in the region, support technical skills on epidemiology and operational research, vector control and biomedical research, modern tools in molecular biology, innovation and ethics.

Eligibility criteria to obtain the label AMSUD/Pasteur: Organizers with clearly defined and recognized expertise in the proposed initiative domain are required. Invited speakers from other countries are accepted in the program. Initiatives organized in collaboration between groups from the MERCOSUR region, Pasteur Institute and associated members in Europe should be preferentially stimulated.

Specific domains to be covered: Public Health, Biomedical Research, Fundamental Biology, Biotechnology and Transfer of technology and management. Priority will be given to some precise areas clearly specified in the Call for Applications.

Applications : application forms should be sent electronically to the Regional Office of AMSUD-Pasteur in Montevideo (pasteur@fcien.edu.uy).

Treatment of proposals: The two (2) best applications per country will be directed to the Institut Pasteur delegates. The proposals will be treated by the COMASI at Pasteur Institute and its panel of *ad hoc* reviewers which will provide technical expertise, follow-up, monitoring and evaluation of the initiative. The equity and standard criteria will be ensured in consultation with the regional and Pasteur Institute AMSUD-Pasteur offices. Feedbacks on support and labelization will be given to the organizers by the Regional Office of AMSUD/Pasteur after final decision of the International Coordinator Committee (CCI) that will take into consideration the advises of COMASI, the criteria of impact, the logistic and the polices of AMSUD-Pasteur Network Agreement.

AMSUD/Pasteur Labelization : The utilization of the AMSUD/Pasteur label to the initiative will be only allowed upon final approval by the CCI and Pasteur Institute AMSUD-Pasteur offices.

LABELIZATION OF SCIENTIFIC MEETINGS --- APPLICATION FORM ---

Additional informations are also available on line on the web sites of the AMSUD-Pasteur Network :

- in Montevideo (<http://www.amsudpasteur.edu.uy/>)
- in Paris (<http://www.pasteur.fr>)

Annual Dead lines (Two calls per year)

FIRST CALL :

- Call for Applications : January 1st to 20th of April
- Applications should arrive at COMASI the 1st of May
- COMASI (Comité d` Animation Scientifique International) expertises will be returned to the CCI the 20th of June
- Final decision after the annual meeting of CCI at end of June.

SECOND CALL :

- Call for Applications : July 1st to 20th of September
- Applications should arrive at COMASI the 1st of October
- COMASI expertises will be returned to the CCI the 20th of November
- Final decision after the annual meeting of CCI at end of November.
